KUNFF HEADS REVOLT

30,000 Szekler Soldiers Report-
ed as Deserting to the
Rumanians

(By the Associated Press)
LONDON—Bela Kun, the Hun-
garian foreign minister, in a tele-
phone message to Vienna, forward-
ed through Copenhagen by the Ex-
change Telegraph company, denies
the accuracy of reports regarding
the political crisis in Budapest. He
says that the communists still are
exercising their dictatorship and
are successfully resisting the op-
posing forces, even gaining ground.

Change Is Expected
(By the Associated Press)

BUDAPEST (Monday)—A
change in the makeup of the Hun-
garian government which will give
it a more conservative tendency is
expected within a few days. The
name of Count Michael Karolyi,
former President is not mentioned;
but M. Garami, a moderate socialist
who served in Karolyi's administra-
tion has been requested to return
from Switzerland.
The government has decided to
attempt to discipline the population.
One of the first steps was to order
the coffee houses closed. The local
telephone service has been suspend-
ed on the ground that it is a bour-
geois institution. A large amount
of bad money is in circulation and
selling for forty per cent of its face
value. Its origin is not known.
Railway trains have stopped com-
ing into Budapest.

AMSTERDAM—The Hungarian
government headed by Bela Kun
has resigned under pressure of Rumanian
troops, according to a dispatch
to the Central News from Vienna
quoting reports received in that city.
Aerial mail from Budapest. Wild
rumors are said to prevail at the Hun-
garian capital.
It is reported that Czech forces
have joined the Rumanians and have
defeated the Hungarian soviet
troops.

Fall Was Expected
(By the Associated Press)
BUDAPEST—The downfall of
the Hungarian soviet government
was expected here as a result of the
desertion of 30,000 Szekler troops
to the Rumanians and new move-
ments against Hungary by the
Czechs. It is said that a
socialist democrat regime headed by
Sigmund Kunfi, present commissary
of education, may succeed to control.

Bela Kun Dramatic
VIENNA, April 22.—Bela Kun
was downed in reported, first at-
tempted public notice in Vienna in
the days of the declaration of the
Austrian-Austrian republic here.
Kun, who appears not older than
25 years and is a self-confessed Bol-
sheviki leader of Lenin and Bol-
shevism, made a spectacular ap-
pearance in this capital. Dressed in
a uniform with stripes on his
sleeves, indicating that he was a
college student, he drove daily
through the streets of Vienna in an
open motor car displaying a huge
red flag and inviting the people to
follow him and guard for the purpose
of overthrowing the newly formed re-
publican government.

WEATHER IS BAD
ST. JOHNS, N. F.—Weather con-
ditions were again unfavorable to-
day for a start of the proposed
transatlantic flights by Harry
Hawker, Australian pilot of the Sop-
with airplane, and Capt. Frederick P.
Nasham, his British rival, who is
to use a Martinsyde machine. Fog
again prevailed.

Daily Weather Story
The highest temperature during
the past 24 hours was 62 at 4 p. m.
and the lowest was 47 at 11 p. m.
Precipitation was 0. The sun will
set at 7:58 p. m.
Showers and warmer weather pre-
vail in the Mississippi and lower
Missouri valleys. Elsewhere the
weather is generally fair and cool
with much of rain fall last night at
Rocky Mt. The temperature is
above freezing except in western
Canada.

ENEMY ATTACKED WITH CON- SIDERABLE FORCE OCCUPY- ING TOWN, SAYS MESSAGE

LONDON—The important city of
Vilna has been recaptured from the
bolsheviks, according to official ad-
mission in a Russian wireless dis-
patch.
The Russian message reads:
"The enemy attacked with consid-
erable force in the Vilna region,
pierced our lines and occupied the
town."

RATE BOARD HIT REPORT CAR PROBERS

Beginning of Trouble Starts
With Failure to Grant
Prompt Decisions

By FRED L. HOLMES.
A law to compel the railroad com-
mission to more promptly pass on
cases was recommended by the
special legislative investigating
committee which has been probing
the affairs of the Milwaukee street
car company and the cessation of
service there on Jan. 1. The com-
mittee declares that there appears
to be a general lack of confidence
between officials of the city of Mil-
waukee and the members of the
street car company in the ability
of the railroad commission to admin-
ister the law. The commission is
sharply criticized for failure to
promptly decide cases.

Certain advertisements and
propaganda literature issued by the
company in so far as they were in-
tended to coerce the commission
"in its decision of matters then pend-
ing before it, the action of the com-
pany is censurable." Speaking of
the strike in Milwaukee, the report
tells how the men were put off from
time to time, on wage matters.
Men Buffeted About
"The men had been buffeted back
and forth until finally they struck,"
says the committee report filed in
both houses of the legislature to-
day. "In doing so they knew they
had the sympathy of their employ-
er."

The investigation was conducted
by a special committee of the legis-
lature composed of Senators George
B. Skogmo, chairman, river Falls;
W. C. Zumbach, Milwaukee; Assem-
blymen Clarence H. Carter, Virgo-
qua; James B. French, Superior and
Al. E. Johnson, Madison. Carter
was chosen as secretary of the com-
mittee. Charles H. Crowhart, for-
mer member of the state industrial
commission, was chosen as special
counsel.

A brief history of the company
and the fare areas are given in the
report. There is also an extensive
discussion of the organization of
the Employers' Mutual Benefit Asso-
ciation.

ORLANDO IS ABSENT AT COUNCIL OF 4

Italian Premier is Not Pres-
ent When Meeting is
Held Today

MESSAGE TO CAPITOL

Confidential Report is Sent on
Reported Defensive Alli-
ance Planned

PARIS—Premier Orlando was ab-
sent this morning when delibera-
tions were resumed at the Paris
White House. President Wilson and
Premiers Lloyd George and Clem-
enceau were present.
The president and the two prem-
iers went again into the Japanese
questions which were taken up when
the deadlock over the Adriatic ques-
tion was reached yesterday.

Not to Injure League.
(By the Associated Press)

WASHINGTON—Administration
officials were advised in a confiden-
tial telegram from Paris today that
in the consideration of "problems
confronting the peace conference,
such as Italy's Adriatic claims and
the question of an alliance to protect
France from future aggression,"
President Wilson would take no ac-
tion which might in the slightest de-
gree jeopardize the league of na-
tions or conflict with its fundamental
principles.

The message was a reply to a ca-
blegram of inquiry regarding the
president's attitude toward a secret
alliance which, according to certain
Paris newspapers, contemplated a
special defensive pact to be entered
into by France, Great Britain and
the United States. The outcome of
the apparent deadlock over Italy's
Adriatic claims is awaited in official
quarters here with evident anxiety.
The situation as pictured in press
dispatches is regarded as serious,
and there was no message from Paris
yesterday or today similar to those
of last week reporting gratifying
progress at the peace table.

May 15 Is the Limit.
(By the Associated Press)

PARIS—Discussion of the peace
terms by the Versailles congress af-
ter the Germans are called in will
not be continued longer than May
15, the Echo de Paris today de-
clares. The Germans will be re-
quired to sign the peace conditions
subject only to ratification by their
government, the allies not consent-
ing that these conditions shall be
submitted to a plebiscite.

Satisfaction is expressed by the
Paris press at the speedy subsidence
of the flurry over the question of
what German delegates should
come to Versailles. The deduction
is drawn that the only thing neces-
sary to bring about the failure of
such dilatory maneuvers by the
Germans is to speak clearly and
firmly to them.

It is pointed out that the only
benefit, if there be any, which Ger-
many has secured, is to delay the
opening of the negotiations for a
few days. The solution is attrib-
uted by the press of all parties to the
energetic attitude of the entente
which is accounted a good omen for
the success of the Versailles nego-
tiations.

the general manager, who recently
returned from Paris, was the princi-
pal speaker at the luncheon.

REPORTS FROM ALL PARTS OF COUNTRY ON THE VICTORY LOAN

WASHINGTON—"A distinct-
ive tone of optimism dis-
tinguished the scores of
telegrams that arrived at the
treasury department today," said
an official review of the opening
day of the Victory loan cam-
paign.

Among the comments from
chairmen of Federal Reserve dis-
trict organizations were:

Cleveland—"Advance pledges
to the loan much greater than in
any previous campaign."
Philadelphia—"Not one-tenth
as much enthusiasm ever has been
evidenced in connection with a
loan."

Chicago—"Reports from all
states in this district indicate
boundless enthusiasm. Most au-
spicious opening ever vouchsafed
any war loan in Chicago."

San Francisco—"Reports from
throughout this district indicate
plenty of enthusiasm."
St. Louis—"Eighth district got
away to good start. Three Mis-
souri, two Illinois, one Arkansas,
and one Mississippi counties over
Memphis trying to reach quota
this week. St. Louis starts fine."

Boston—"Thirty-five million
dollars—unofficially—reported.
Twenty-four cities and towns ex-
ceeded quota headed by Proctor,
Vermont, with 304 per cent over-
subscription."

Kansas—City—"Four counties
in Tenth district unofficially over
subscribed."

RECALL BILL HELD LEGAL BY BLAINE

Attorney General Renders
Opinion to Legislature on
Hanson Measure

FIGHT ON WEDNESDAY

House to Consider Passing of
Enactment Over Execu-
tive Veto

BY FRED L. HOLMES.

The C. E. Hanson bill giving the
legislature power to recall an ap-
pointive official after an interpella-
tion was held to be a valid enact-
ment by Attorney General Blaine in
an opinion to Assemblyman Axel
Johnson. The consideration of this
bill, which has been vetoed by the
governor, comes up in the assembly
Wednesday.

"It is my opinion that the legis-
lature can create any body or board
or other instrumentality through
which the legislative will may be
exercised with respect to the removal
of officers," says Mr. Blaine.

It is my opinion that any official
whose office has been created by
the legislature may be removed, and
that the legislature may provide any
method for the removal of such of-
ficials.

This proposition is sustained by
various legislative acts since the
organization of our state, and the
position has received the sanction of
the courts repeatedly, and the re-
moval of an officer under the pro-
posed bill is not a legislative act and
does not require any other proce-
dure than that provided for in the
bill. When the legislature acts un-
der this bill it is not acting in its
legislative capacity, but in an admin-
istrative capacity, or in a quasi-
judicial capacity.

The authority conferred upon
the legislature by joint resolution
is the exercise of discretion, not for
the guidance of the legislature in
its legislative capacity, but the do-
ing of a thing by it as an adminis-
trative body under legislative enact-
ment.

The big fight in the legislature
will be over the C. E. Hanson pro-
position. This bill passed the house
unanimously and in the senate with
only one vote in opposition. When
it was received by the governor he
vetoed it, claiming among other
things that it infringed upon the
powers of the executive. He ques-
tioned the validity of such a law.

Now that the bill has been held
legal an interesting fight in the as-
sembly will develop. It takes a two-
thirds vote, however, to pass the
bill over to the executive veto. The
opinion is general that if the bill
overrides the veto of the executive
in the house it will have little trou-
ble in the senate. The fight for the
passage of the bill on Wednesday
will be led by Assemblymen Coe and
Axel Johnson, Polk county.

Today's Summary —From Europe— (By the Associated Press.)

Germany has bowed to the
virtual ultimatum of the entente
powers relative to the sending
of "Mera messengers" to the
peace congress at Versailles and
will be represented by a dele-
gation having full powers to
negotiate a treaty of peace.

This closes what for a time
seemed to threaten a grave
complication in the work of the
congress. It is probable, how-
ever, that the actual meeting of
the allied and German delegates
will not occur until April 28,
as the change in the German
plans will not occur until April
28, as the change in the German
plans and the physical impossi-
bility of having the official draft
of the treaty ready for presen-
tation April 26, makes a post-
ponement of the historic gather-
ing imperative. Germany is
ready to call for a plebiscite on
the treaty.

Meantime the Italian situa-
tion is a source of much concern.
After conferences with Prem-
iers Lloyd George and Clem-
enceau, Sunday and Monday
morning, Premier Orlando and
Foreign Minister Sonnino ab-
sented themselves from the
council of four Monday after-
noon. Whether this marked a
virtual withdrawal of the Ital-
ians from the conference was
not developed. President Wil-
son, still opposed to recognition
of the treaty of London, under
which Italy lays claim to Fiume
and the Dalmatian coast, has
prepared a statement on the
subject which will be made pub-
lic if the deadlock continues.

A revolution has broken out
in Turkey and a soviet govern-
ment has been set up, according
to news dispatches originating
in Bolshevik quarters at Odessa.
Constantinople is said to be un-
der the rule of a bolshevik com-
mittee.

The Hungarian soviet gov-
ernment headed by Bela Kun is
reported to have fallen. Rumanian
forces advancing from the east
have been joined by Czech
troops, and the soviet army has
been defeated. (Szekler soldiers,
representative of a minor race
living in the Transylvanian
Alps have deserted the soviet
army and joined the Ruman-
ians. Advances from Budapest
indicate that the social democ-
rats will take over control.
They are headed by Sigmund
Kunfi, the commissioner of edu-
cation in the soviet cabinet.
Chaos is reported to prevail in
Budapest.

The soviet regime at Munich
also has crumbled, the end
coming Saturday, according to
reports reaching London. The
ministry headed by Herr Hoff-
mann is at work and a resump-
tion of governmental functions
is under way.

On the Ural front in Russia
forces under the command of
the Omsk-all Russian govern-
ment have again defeated the
Bolsheviks who are reported to
be retreating. Demoralization
in the bolshevik ranks is re-
ported and in the Viatska gov-
ernment the peasants have re-
volted against the Lenin-Tro-
tzky government.

Jonas Bros. Sale is Still Drawing Crowds

The sale at Jonas Bros. is still
progressing at a lively rate. There
seems to be no perceptible letup in

CHARLES GEISE FINDS HIS WORK A PLEASURE NOW

Milwaukee Man Lost Weight and Strength—Built Up by Tanlac

"I am so well and strong since I have been taking Tanlac that I believe I could get out and work hard all day with a pick and shovel and feel just fine," said Charles G. Geise, a well known Machinist who lives at 420-17th Ave., Milwaukee, while talking with a Tanlac representative the other day.

For the past year or more," continued Mr. Geise, "everything I ate just seemed to settle into a hard lump right in the pit of my stomach. Instead of digesting, my food would sour soon after meals and often gas would form and press up around my heart so that I could hardly breathe. I would have shooting pains all through my chest and head, and would sometimes get so dizzy that I could hardly stand up. I also suffered from constipation. I could see that I was losing in weight and strength every day, and in fact I just had a mean, miserable, worn out feeling all the time, and finally got to where I didn't care how things went. Sometimes I would feel just like dropping my work and going home and crawling into bed."

"I picked up a paper one day and saw where a man whom I personally knew, was recommending Tanlac, and knowing this man to be absolutely reliable, I decided to give Tanlac a trial myself. I have only taken four bottles so far, but I can truthfully say that those four bottles of Tanlac put me right square on my feet again. I am entirely relieved of all that stomach trouble, and am never bothered with indigestion or gas after meals. I never had such an appetite and I eat just anything I want. I am picking up in weight right along, too, and in fact I am just simply all right in every way. I work hard every day now and feel so fine all the time that my work is a real pleasure to me. There is no doubt in my mind about this Tanlac being the best medicine on earth to build a man up, and it will keep him built up, too. I am more than glad to recommend Tanlac to everybody."

Tanlac is sold in Madison exclusively by A. D. Luckey & Sons.—Adv.

SOLONS PUT ALL BILLS ON LISTS FOR HEARING

Attempt is Now Made to Bring Session to June 1, Close

Almost every bill before the Wisconsin legislature has been bulletined to hearing this week in an effort to get the work of the session under way for a June 1 adjournment as suggested by Lieut. Gov. E. F. Dittmar and Speaker Riley S. Young.

The agricultural committee on Wednesday will give a hearing to the bill carrying an appropriation for the dairy and food department, but providing for increased licensed fees for bakeries and other industries. The bill was once before the house for passage, but the opposition of the farmers sent the measure back to committee for further hearing. Rosthe's resolution asking congress to repeal the daylight saving law is on for hearing the same day.

The big trunk highway bill increasing the trunk highway system of the state from 5,000 to 7,500 miles in order to meet the demands of the federal government will be heard by the finance committee Tuesday. The Hood bill abolishing the poll tax is on for hearing the same day.

The Perry bill for the licensing of painters and decorators is slated for hearing by the state affairs committee Tuesday.

Scores of assembly bills are now appearing before senate committees for consideration, indicating that the work of the session is well advanced. The Ruffing bill, providing for one day's rest in seven is on for hearing before the senate corporation's committee Wednesday. This bill passed the lower house by a large vote. It will also give a hearing to the Children's bill making "influenza" a dangerous communicable disease.

The senate judiciary committee Tuesday considers the March resolution asking for an amendment to the state constitution providing for the initiative and referendum. The resolution went through the house by a large vote and senate leaders predict it will be concurred in.

Problems of reconstruction will be considered by the reconstruction committee on Wednesday. A hearing will be given by the committee to the Bird bill providing for the establishment of community houses to take the place of saloons. Another bill to be considered that day provides for labor representation on boards of directors of industrial corporations. Still another bill recognizes the principles of collective bargaining.

The bills of the house of an important nature have been given hearings and most of the measures now before the committees are of minor importance. The measure of over-shadowing importance is the bill to give aid to soldiers. The opinion of some of the best lawyers of the state seems to be against the plan for issuing bonds on the ground of the constitutionality, and a state tax for \$10,000,000 would simply send taxes skyward.

Early this week the finance committee will report the bill increasing the appropriation of the industrial commission \$100,000 annually. This increase will do away with the further interpellation of Commissioner Hambrecht, because it was to demonstrate the necessity that the interpellation was ordered.

Bill Asks That All Students Pass State Test

The students of the college of law will no longer be admitted to the bar of this state without first passing the regular bar examination if a bill introduced today by the Assembly Judiciary committee becomes a law.

Whether or not the bill was introduced to place the graduates of the school of law at Marquette university on the same footing as those of the University of Wisconsin has not been explained, but that question will be raised on the floor of the house by friends of the state university when the bill comes up for action.

EDITORS HOLD NOSE WHILE HEAVENLY PERFUME FALLS

An odor of unknown origin spread throughout South hall Monday morning, causing a large degree of discomfort to those occupied in the Journalism rooms. Odors of this nature have occurred in the past, but none have borne the ear marks of the one of yesterday.

An investigation was made in the State Hygienic laboratories located on the floor above the one occupied by the Journalism rooms. The source of the trouble was found here. A laboratory assistant had been sterilizing various specimens of animal matter to prepare them for experimentation, and the nauseating odor escaping from the sterilizer had permeated to the floor below, where it had caused the discomfort mentioned.

PROHIBS SAY BURKE BILL FAVORS WETS

Would Rather Have no Law at All Says R. P. Hutton Today

A condemnation of the Burke substitute to the prohibition enforcement measure proposed in the legislature was issued today by the Wisconsin Anti-Saloon league in a statement signed by R. P. Hutton, secretary of the league and B. N. Hicks, attorney for the organization.

"This is the real bill of the wets," declares the statement. "No bill is better than such a bill. The bill should have a new title. It should read: 'A bill to set aside the state of Wisconsin as a national reservation for bootleggers.' Its only regulatory feature is to abolish the standing bar in 2.75 per cent beer saloons.

"Its first section wipes out every present regulation. There would be no longer any license fee. As no permit is provided for none could be revoked and offenders could pay the enormous fine of \$25 and go back and repeat ad libitum. It would permit the sale of such beer to children, saloons could be located anywhere, even against public schools.

It repeals the Baker law limiting saloons to one for each 500 population. If they could run without paying license and sell without regulation there would be double as many saloons in wet cities and they would be forced into dry ones whether the people voted for them or not. Its only effect would be to increase the number of saloons selling beer of 3.5 per cent alcohol by volume. 2.75 per cent beer by weight is 3.5 per cent by volume, which is stronger than most beer was before the war.

"If this legislature makes prohibition mean more saloons selling more beer containing more alcohol to more people under less restriction may the good Lord pity us and even pity the legislators who did it.

"Not only would it throw the state wide open, it would give a monopoly to the beer that made Milwaukee famous. This bill requires that beer shipped into the state shall be labeled with the kind and quantity of liquor and the alcoholic content, but the beer that is shipped from within the state need not be labeled.

"The worst feature, however, is that it would write into our law not only the falsehood that beer is not intoxicating, but a defiance of the spirit of the federal constitution. If Elihu Root's opinion of beer is to set aside the constitution then the 'root beer rebellion' of 1919 will be more fatal than the 'whiskey rebellion' of Washington's time. The Burke bill substitute amendment does that."

HAASE TELLS OF SOCIALIST PLAN FOR GERMANY

Says Spartacans Will Quit When Ideals Are Realized

(By the Associated Press)

COPENHAGEN—"When we secure power and are able to realize our ideals, the Spartacans will abandon their methods of terrorism, recognizing that those methods may suit Russia, but that they do not suit Germany," Hugo Haase, German independent socialist leader, is quoted as declaring.

Haase said that the independent socialist party asked for the socialization of all the great services of the country, such as the coal mines, the iron and steel works, etc., "and so also with all the farms on great estates," he continues, "these to be worked and managed by workmen and peasant councils."

"With regard to the soviet system," Herr Haase went on, "there is some difference of opinion but the most of us want it realized in the following manner: Every factory or similar institution to select a special small council to control it, but to have great councils of workers formed throughout Germany, these to have a certain control over public institutions, courts of justice and so on, together with the right to place bills before the parliament. If reforms proposed were rejected the councils would arrange to take a popular vote."

Haase informed the correspondent that he did not consider a reactionary coup impossible in Berlin, but that he did not think such control, if it were acquired, could last more than a couple of months if indeed it endured as long as that.

320 COURSES ARE OFFERED FOR SUMMER

Returning Men May Make Up Work in Six Weeks' School

A bulletin of the twenty-first summer session opening June 30, 1919, announces several new features. Three hundred twenty courses with a force of 100 instructors will be offered, giving an opportunity for men returning from service to make up back work.

The regular session lasts six weeks ending August 8, while the Law school conducts a ten-week session opening June 23 and closing August 29. The usual courses both academic and professional, are offered for graduates and undergraduates in arts, law, agriculture, and engineering for teachers in colleges, normal and technical schools, and for special students—lawyers, engineers, chemists, public speakers, writers, social workers, playwrights, directors, farmers, breeders, and dairymen. The courses are given in the Graduate, Medical, and Law schools, and the Colleges of Letters and Science, Engineering, and Agriculture. The character of the work is indicated by the fact that, as in former years, approximately one-third of those in attendance will be graduate students and one-half teachers.

Special features for the session include agricultural education, Americanization, auto engineering, commercial correspondence and advertising, the great war and its liquidation, labor problems and industrial service, moral education, vocational education, practical problems in democracy, and the war and political reconstruction.

The French house which was begun last summer's session will be continued under the same regulations this year. It will be open to women students as roomers but men will be admitted to the tables. A Spanish table will be run in connection with the house and both French and Spanish tables for those who cannot be accommodated at the house will be arranged for at Chadbourne hall. In connection with the French house, French classes will be conducted by French women and other instructors, following the summer session until September 15. The house will be open for roomers until that date.

Owing to war conditions the enrollment at the sessions of the past two years has not been as high as usual, but according to Dean Goodnight, director of the summer session, an enrollment of 2,500 is expected at the coming session, this expected enrollment being 500 more than that of 1918.

Says Entente Causing Revolt in Europe

Dutch Leader Talks of Trickery of Powers and Peace of Violence

(By the Associated Press)

ARNHEM, Holland—"The league of nations is a caricature and the entente's enemies are simply being economically annihilated," said Pieter J. Troelstra, the Dutch socialist leader, in addressing the congress of the socialist labor party here.

Troelstra said the entente had increased the chance of a revolution in western Europe.

"A vigorous protest must be made against the trickery of the entente powers," he continued. "Their peace of violence is worse than if Germany had won the war. A strong movement must be started against them if peace is to be made on a socialist basis."

The speakers absolutely rejected the idea of bolshevism in Holland, saying that if a revolution visited the Netherlands it must come without the soldiers' and workmen's council.

Fricke Death Held To Be Accidental

The death of Mrs. Henry Fricke who was struck by the auto driven by E. A. Fuller, was due to an accident according to the findings of the special jury impaneled to sit in the coroner's inquest.

The inquest was held yesterday by Acting Coroner Henry Casson. Henry Fricke who was injured in the same accident was present at the hearing. Members of the jury were H. R. Ireland, foreman, A. P. Pelton, H. J. Shaughnessy, C. N. Pulley, N. O. Newberg and Roy Marks.

Witnesses called in the case were Mr. and Mrs. E. A. Fuller, E. G. Schmidt, Eunice Morrell, Henry Fricke, Dr. Joseph Dean, Ray Stroud, Wm. H. Spohn and Dr. Friesland.

Following the testimony, the jury accompanied by witnesses in the accident, went to the scene of the affair. Testimony showed that weather conditions were bad and especially so for one driving a car as the snow and rain struck to the windshield; that the car driven by Fuller was not speeding and that it had been slowed down on crossing the bridge over the Yahara, that Mr. and Mrs. Fricke carried an umbrella which partly cut off their view and they were forced to walk in the road because of the absence of sidewalks and that everything possible was done following the occurrence to save the lives of the victims of the accident.

STRONGER MEN
TAKE THE LEADThey Have Nerves of Iron and
Real Red Fighting Blood

What force is the material from which leaders in all walks of life are made? It is well worth getting and holding.

The health and nerve of the athlete is well known intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like lightning, his mind like a pleasure machine and his life one long joy.

A leading doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and a great prescription, E. F. Hanks' real blood and nerve builder."

He also says, "Phosphated Iron feeds the blood cells with iron and nerve force, and leading specialists are now using it successfully all over the country. That it is one of the few remedies that better class doctors can now depend on to produce results."

Special Notice: To insure doctors and patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

CHARGED WITH
STEALING CARMr. and Mrs. Powers, Are
in Court Today; Arrested at Portage

Mr. and Mrs. H. B. Powers, charged with stealing the sedan car belonging to George P. Miller, 1125 Rutledge street, Sunday morning, pleaded not guilty in Superior court this morning.

Bail was fixed at \$2,000 in the case of Mr. Powers and \$500 for Mrs. Powers and the two were committed to the county jail not being able to furnish bonds. The preliminary hearing was continued until a week from Saturday.

The car was supposed to have been taken from the corner of Henry and Langdon streets and was later found in Columbus where it had been deserted after having been driven. Mr. and Mrs. Powers were arrested in Portage late Sunday and held until the arrival of City Detective Jesse Smith. The couple were brought to Madison yesterday.

Roy Morse of Fond du Lac attorney for the defendants, asked the court for a light bail in the case of Mrs. Powers stating that she would be unable to furnish even \$500 as suggested by District Attorney Heilmann. Her bond however was set at \$500. Powers claims to be a traveling real estate agent of Fond du Lac and Mr. Morse his attorney claims to know the accused couple well.

STRIKERS CALL
MASS MEETING
FOR TONIGHTGisholt Makes Another At-
tempt to Secure Nullifi-
cation of Award

Employers in the present strike controversy have given out the impression that they have taken the award of the war labor board under advisement and are at present engaged in an effort to work out some interpretation of the award which will end the strike. It is understood that they are attempting to make a classification of the men for the purpose of determining the back pay due employees under the award, an impossibility without the assistance of representatives of the employees, according to the strikers.

Conflicting with this information comes the effort of the Gisholt company to secure a ratification of their employees of the agreement submitted by that concern a few days previous to the strike. This agreement is ratified by the employees would act as a joint repudiation of the war labor board's award. Five employees of the concern are making a house to house canvass of employees now on strike in an effort to get them to sign this agreement. The plan is meeting with little success, according to the unions.

A mass meeting of all organized workers now on strike has been called to take place in Turner hall tonight after the machinists' meeting at 7 o'clock.

A meeting of the investigating committee appointed by Mayor Sayle will be called as soon as Professor Ross, who is at present out of the city, returns, according to W. S. Heddies, chairman. The purpose of the meeting is merely to keep in touch with developments, he says.

Seaplanes Will Fly

FESS IS SUED
FOR DAMAGES IN BAVARIACharged With Selling Prop-
erty Which He Did
Not Own

Action for damages of \$1,500 was begun in Superior court this morning by Anna Lamb against Edward Fess, who is charged with fraudulent action in the transfer of property.

The property in question is located at 314 North Warren street. The plaintiff claims that in the transfer in which she became the owner of the property on Warren street, she believed she was buying the land as fenced off. As a matter of fact a strip of the land 7 by 10 feet was property of the Chicago, Milwaukee and St. Paul Railroad and was merely leased. She claims she was not informed of this fact and that the property is of materially less value owing to this condition.

The defendants claim that while they did not specifically inform the plaintiff of the conditions, that they made no effort to hide the facts from her and that the plaintiff had lived in the property for nearly two weeks before the exchange of deeds was completed and that she was at liberty to investigate her purchase.

PHILIPP MAY
SEND MESSAGEGovernor and E. A. Everett,
Resent Statements by
Visiting Board

Gov. Philipp is considering the advisability of sending a special message to the legislature setting forth new facts relating to the charitable and penal institutions of the state and answering the criticisms made by the special legislative committee which has investigated the institutions. For many of the criticisms he declares there is no foundation.

Through Former Assemblyman E. A. Everett, now a member of the state board of control, a statement has been issued answering many of the committee criticisms. He denied that there are 13,000 feeble minded in the state and says that the compilation of this data is based on a theoretical survey. The requests for new buildings at the different institutions were all recommended by the state board of control in its annual report. Admission is made that the dormitory at Delavan is unsanitary, but Gov. Philipp states that repairs were being made at that institution.

Military Situation is Im-
proving Says the Hoff-
mann Ministry

(By the Associated Press)
LONDON — The military situation in Bavaria is improving, according to an announcement made by the Hoffmann ministry. The Spartacists, who took the town of Dachau, ten miles northwest of Munich by violating the armistice with the government troops, have been repulsed and the government forces are now holding the place. Reinforcements are moving toward Munich from Ingolstadt.

The Hoffmann ministry, which resumed control of the capital Sunday, following the collapse of the soviet government Saturday night is feverishly active.

Delegates to the diet are arriving daily and the assembly will meet soon.

Communist leaders are making earnest overtures to the peoples of southern Bavaria and are sending agents through the country making an especial appeal for the support of women.

Ernest Toller, president of the soviet government has left Munich but Dr. Levin, leader of the Bavarian independent socialists; M. Axelrod, the Russian socialist who assisted in the establishment of the soviet regime, and Herr Nissen, one of the soviet leaders, remain in the city.

There is much plundering of towns in Bavaria, and at places bitter fights have occurred between the communists and the Bourgeoisie.

Attack Is Reported.

WILLIS MEETINGFormer Ohio Governor Will
Speak Here for Law
Enforcement

Ex-Gov. Frank B. Willis, Ohio, will talk before the ratification jubilee luncheon and law and order conference which will be held by the Wisconsin Ratification Council of One Thousand in the city Y. M. C. A., Wednesday evening at 6:15 o'clock.

"Perils of Peace for Democracy" will be Mr. Willis' subject. R. P. Hutton, Milwaukee, will speak on "Over the Top—and a Look Beyond."

The luncheon, says the invitation, is one of a series called to bring together the leaders of public opinion "for the purpose of crystallizing public demand for the enforcement not only of liquor laws but all laws during this time of unrest and reconstruction."

Officials of the council are:

*L. M. Alexander, Nekooze-Edwards Paper company, state chairman; H. A. Brunzell, Madison Labor Council, vice chairman; J. T. Phillips, Wisconsin Hardwood association, state secretary.

The following are local committee members: Ernest N. Warner, E. A. Ross, E. E. Boissard, Joseph M. Boyd, Richard T. Ely, C. F. Burgess, A. H. Melville, Joseph Dean, Emerson Ely, W. T. THE RECALL BILL

THE Jackson appointment comes up in the senate again tomorrow.

Meanwhile the Hanson recall bill has been vetoed.

If Jackson is confirmed it means that he is beyond reach for six years.

The governor's complaint that the senate had invaded the field of the executive in attempting to compel the governor to sign the recall measure is quite amusing when the alacrity with which the governor has usurped legislative functions is recalled.

The senate has a higher duty than to keep in mind the dignity of the governor. It has a duty to the people of this state. And the senate is within its rights in doing all that it can to give the people an instrument by which they can reach state officials who fail to do their duty.

Do the members of the senate deny that the present commission has lost the confidence of the people of the state?

Are they ready to foist Jackson on the people of this state for another six years without any opportunity to reach him?

It is up to the senate to refuse confirmation until final action has been taken on the recall bill.

AN UNNECESSARY BILL

ANOTHER bill which always bobs up at every session of the legislature has put in an appearance at this session.

It is the bill requiring graduates of the university law school to take the examination of the state board of law examiners before being allowed to practice.

Marquette university influences have always been back of this bill and the measure would place graduates of the Marquette law school on the same basis as the university. The friends of the Milwaukee institution allege that the present system is a discrimination in favor of the university.

They fail to differentiate, however, between a STATE institution and a PRIVATE institution. Under the new bill a young man who goes through the university law school would have to submit to two sets of STATE examinations in order to practice law. The faculty of the law school are agents of the state in the one instance and the board of law examiners in the other.

Why should students at the university be asked to pass two sets of STATE examinations? And why should the state be asked to duplicate this work? Why should there be any difference between the STATE faculty and the STATE board of bar examiners?

There is another phase of the question that should be considered. It is becoming increasingly difficult to obtain the services of leading attorneys on the board of examiners. It is only at a personal sacrifice that the class of men now on the board can afford to devote their time to the work. To add to their work by increasing the number of examinations would make it much harder to obtain men who would give their time to this work. As a result, the standing of the board would be lowered.

There is no sound reason for changing the present system. Marquette should not attempt to grow by placing hobbles on the university.

FROSH SCHEME FOILED BY SOPHOMORE FLAG POLE ACROBAT

Painting red '22's on the side walk in front of the Engineering building is tame compared to the latest perpetration of the members of this year's freshman class.

The most daring act of all was attempted yesterday afternoon when a gym towel containing the number '22' was hoisted to the breeches on the flag pole above Main hall, and permitted for a short time (indeed, a very short time) to fly alongside the American flag which has a permanent berth on the above mentioned flag pole.

It was only a moment before discovery of the outrage had been made by one Thomas B. Martineau, sophomore of the College of Letters and Science, who by his heroic action, bids fair to be the next president of the sophomore class.

His first attempt at repatriation revealed the fact that the frosh who had committed the deed had very cleverly cut the rope, leaving only one possible course of action open: if the hideous emblem were to come down.

Martineau, being a man of action, did not hesitate for a moment. Gaining access to the roof of the building he proceeded to climb the flag pole and pull down the towel.

Voice of the People

FROM MAYOR HOAN.

To the Editor of 'The Capital Times':
May I not interest your paper at this time in two matters pending before the legislature?

(1) Measures perfecting the rights of cities to purchase public utilities, and

(2) The adoption of an effective home-rule constitutional amendment. On the first subject let me say that the legislature in 1907 by the adoption of the public utility law of this state adopted a policy that the state should regulate public utilities. In doing this it gave certain valuable rights to the utilities and assumed to give in exchange other privileges to cities. On the one hand it gave to street railway and public utility interests indeterminate permits. These are perpetual franchises to save the companies the expense of going to common councils periodically for new grants of franchises.

The law created a commission to guarantee the profits of these organizations. No other line of business was given the advantage of a commission whose salaries are being paid by the tax-payers for the purpose of guaranteeing their profits.

Under these indeterminate franchises most all cities were deprived of many valuable rights secured in the previous franchises. The companies were excused from fulfilling such obligations proposed therein, as furnishing free telephone service to cities, furnishing power to lift bridges, paying a certain percentage of the gross receipts as in La Crosse, and numerous other concessions. On the other hand, cities were assumed to get reasonable service at reasonable rates. I have not found many people who will say that the cities received either the service or the rates. It was assumed that the commission would lower rates. As a matter of fact, perhaps in 75 per cent of all cases, rates have been raised. Common councils were deprived in proposing advantageous conditions in new franchises. The only real grant was the right that cities could condemn plants upon paying the purchase price fixed by the commission and municipalize public utilities. This phase of the law has always been a joker because cities are virtually all up to the debt limit and under the constitution can not issue securities necessary to finance the deal. Every attempt to put through laws remedying these conditions has met with the opposition of paid lobbyists of the public utilities who were the greatest beneficiaries under the public utility act. In order to defeat these measures, the lobbyists have gone before successive legislatures and scoffed at the idea of municipal ownership, although the people gave cities the grant of power.

At the present session of the legislature there are pending measures which will remedy this condition. They were endorsed unanimously by the legislative and executive officials of the Wisconsin League of Municipalities.

Bill 226s introduced by Senator Nye will permit cities to issue bonds on public utility and street railway properties which are not charged against the bonded indebtedness of cities. This is an immediate remedy to get us out from under the restrictions of the bonded indebtedness clause, but will require securities issued at a higher rate of interest than ordinary city bonds.

Joint resolution 21a by Assemblyman Kane will permit cities to issue general city bonds beyond the present debt limit where such bonds are used to purchase public utilities and street railway properties. This measure has already passed the house. Only 11 states have restrictions on the bonded indebtedness of cities and none of these restrict these bonds as low as 5 per cent of the valuation of all property in the city.

Bill 337a affecting cities of the first class by Assemblyman Miller, and 235a affecting cities of the second, third and fourth class by Assemblyman Johnson, both provide or make effective the method of taking advantage over public utility properties under the public utility law. In short, unless the legislature completes the public utility law by passing these enactments giving cities the means of taking advantage of their rights of municipal ownership under the public utility law, a great fraud has been committed.

The home-rule amendment which I drafted at the request of the common council of Milwaukee, being joint resolution 38s by Senator Arnold, has been adopted by the common council of Milwaukee, has been approved by the City Club Charter committee, by the mayors and city officials mentioned, unanimously; it has been heard before the committee on corporations of the senate and should be reported on at once for passage.

At the last session of the legislature the home-rule amendment passed one house and was defeated in the senate by only one vote, because it was voted on so late in the session, that many members were absent and the necessary two-thirds vote could not be secured. No doubt an attempt will be made this year to defeat this needed constitutional amendment by delay. At this time when everyone in the legislature is crying out about the long session, why should we continue a system which piles up hundreds of bills affecting cities to be considered by that body.

The home-rule amendment preserves to the legislature the right to legislate on any matter concerning the state at large or which affects all cities or villages uniformly. I trust that your paper can see fit at this time to urge upon the legislature the adoption of these measures.

Yours very truly,

DANIEL W. HOAN,

Mayor.

Milwaukee, Wis., April 11, 1919.

Record Shows How So-Called Drys Are Voting With Reactionaries

Anti-Saloon League Failed to Support Progressives and Winked at Desertion of the Reactionaries

By WILLIAM T. EVJUE
(Article No. 8)

ON this page today we are again printing the legislative roll call to be used for a reference for observations to be made in this article.

We have referred in previous articles to the fact that the big interests of the state have used prohibition as an issue by which many men have been sent into the legislature with the lively of heaven to serve the purposes of another kind.

We believe that the record shows plainly that many of the men who ran on the prohibition issue have voted against the legislature. We have contended that the Wisconsin Anti-Saloon league, which is dominated by Big Business in this state, has insisted that the qualifications for men running as candidates should not only be dry, but reactionary as well.

The prohibition issue has been a convenient disguise for these reactionaries. In a district wherever the issue was raised a candidate could state that he would vote dry and that would be sufficient evidence that the candidate was "clean and a good man." The fact that he might go to the legislature and vote for long hours for labor, bigger rates for corporations, easier tax levies for the big fellows would be lost sight of. The candidate would keep the dry issue out in the forefront and keep quiet on the other issues. In too many cases, however, the professions of the candidate on the dry issue were simply for the purpose of getting into the legislature to render the REAL service that he wanted to render.

In the legislature two years ago there was a group of progressives who comprised the backbone of the dry strength. They voted right on the referendum proposition. They also voted right on other issues in the interests of the people. This group comprised such men as C. N. Saugen, Eau Claire county; W. N. Duffy, Bayfield county; V. V. Miller, Rusk; Fred Hess, Waupaca; C. E. Casperson, Polk; Charles D. Ross, Rock; Alan Galbraith, Marquette; Ed Nordmar, Langlade; Newcomb Spoor, Green Lake; Julius Engestrom, Lafayette; George Whiteside, Portage; B. N. Van Doren, Shawano, and others.

These men stood true blue throughout the bitter fight of two years ago when two or three votes either way would have overturned the balance in favor of the wets.

Did the Anti-Saloon league do the square thing and give these men the support to which they were entitled? Of course not. The profiteers on the board of directors of the league were against these men because they were progressive. The Anti-Saloon league was much interested in getting reactionaries into the legislature as they were in getting drys there.

One or two cases are typical of the manner in which the Anti-Saloon league operated. In the case of Judge Rosa the Anti-Saloon league decided early last summer that he "couldn't be re-elected." Sly hints were thrown out to indicate to Rosa that the dry cause would be better served by allowing another candidate to step in.

Then came a hypocritical piece of camouflage. Mr. Hutton of the Anti-Saloon league began to state that a "labor" candidate from Beloit who would

NEW STRAND

VIVIAN MARTIN
"You Never Saw Such A Girl"

What Advance Men Say ABOUT SHOWS

Booked at Madison Theatres

MAJESTIC

Another of those excellent features will be shown at the Majestic today when the bright little comedy star Hazel Daly featured with one of our own Madison boys, Sidney Ainsworth, appear in their new feature "The Little Rowdy." It is in every sense an artistic production, a bright breezy comedy of the better sort, and the details are presented with consistent realism. You should not miss the opportunity of witnessing a performance of one of our own home boys, Mr. Ainsworth.

THE GRAND

All the romance that could be jammed into any adventuresome girl's life, if she started out in a green van with no other purpose than to find adventure, is crowded into the five reels of "Diane of the Green Van" with Alma Rubens playing the leading role. The picture is based on the \$10,000 prize winning story by Leona Dalrymple. Mr. Nigel Barrie, of the Royal Flying Corps, is seen in a supporting role. At the Grand today.

That Vivian Martin, the popular Paramount star, has an exceptional vehicle in "You Never Saw Such A Girl," her latest picture, is conceded by all who have seen the picture. The story is by George Weston, and was published in book form under the title "The Kingdom of Heart's Desire." Marion Fairfax adapted it to the screen as "You Never Saw Such A Girl." Robert G. Vignola, with his usual directorial skill, put it into film form. It will be shown at the New Strand Theater today and tomorrow.

The program also consists of a Lyons and Moran Comedy and "The Brat Photograph." On Wednesday and Thursday Elsie Ferguson will be seen in "The Marriage Price."

ORPHEUM

One of the neatest and most entertaining acts that has been seen at the Orpheum for some time opened yesterday for a four days' engagement; this offering is a program under the title of the World Dancers, an organization consisting of seven clever artists. They offer a repertoire of dances, embracing classical and popular numbers. Bert Lewis, who was seen here some time ago at the Fuller when he appeared with the Camp Grant Vaudeville Show, is back in town, and he offers several new songs which were well received at the Orphe yesterday. McCormack & Wallace, in a ventriloquist novelty, introducing comedy, "At The Seashore," caused much laughter. They have a very good act. The two Kuehns, was a pleasing violin, singing and whistling number; and Jack Lavier, a good-natured monologist, came in for their share of applause.

"THE END OF THE ROAD" "He who is warned is half armed," is a maxim that most anyone may see the point of, and the function of the great public health film, entitled "The End of the Road," which closes a successful engagement at the Fuller theater tonight, is devoted to sounding a warning that should serve to arm our moral nature to make relentless warfare upon public ignorance regarding the dire penalties of sex contamination.

No greater lesson as to the need of teaching the youth of the country, the blessing of clean and healthy living can be given, than by this visualizing this intensely human story, which reveals the many temptations that induce thoughtless and reckless girls and boys to sow the seeds of venereal infection.

This dramatic photoplay was conceived and written by the famous lady physician, Dr. Katharine Bennett Davis, in collaboration with Lieut. Edward C. Griffith for the war department, and now that the war is over, the surgeon general of the army has authorized the presentation of "The End of the Road" in the regular theaters throughout the United States, and this city is fortunate in being able to exhibit this realistic film to its citizens.

Clara Adams, than whom no more beautiful and talented actress has ever appeared upon the screen, superbly enacts the girl who "Goes straight," thanks to her mother's sensible precepts, and Richard Bennett plays an army surgeon with impressiveness and distinction.

VOLUNTEER DAYS END WITH TONIGHT

[BY THE PUBLICITY COMMITTEE OF THE VICTORY LOAN.]

Be a Volunteer! Subscribe for your Victory loan Share before the polling booths close tonight. The Volunteer button you get in recognition of your high example will be one of the choicest insignia you will possess in after years.

The Victory Loan committee makes this appeal once more to the people of Madison. Yesterday's answer to the call for volunteers was so gratifying that all doubt of the wisdom of the plan is done away. Madison so far has not fallen down. Part of a day remains for those who have postponed action to go to their polling booth and do as their neighbors have done.

Booths will be open as long as there is light, and where they are in schoolhouses provided with lighting facilities lieutenants will remain on duty until a late hour. Keep them busy, is the Victory Loan message at the close of this, the second and last Volunteer day of the last popular loan.

Attention of Second ward citizens is directed to the change in booth location. Discovery was made yesterday that the booth had been hauled away from its accustomed spot. Victory Loan subscriptions may therefore be made at Brady's grocery, North Hamilton and North Butler streets.

Volunteer buttons for subscribers of yesterday and today are still lacking owing to delayed delivery from Chicago. They are expected any day.

Spend Honeymoon on Peak of Black Hills

(By the Associated Press)

LEAD, S. D.—Lieut. E. H. Emmons of New York and his bride, who went to Harney Peak, in the Black Hills, to spend their honeymoon, are still marooned in a look-out cabin on the peak. Lieut. Emmons and his bride became isolated on April 5, when a blizzard swept through the Black Hills. Telephone communication with the cabin was broken. It was restored recently. The couple decided to spend their honeymoon on the peak because of Lieut. Emmons' poor health. They took provisions to last a month.

Conrad Midthon of Edgerton was a visitor with his parents Saturday. Mrs. Annet Warren returned home Saturday from a visit at Rice Lake.

Miss Florence Osterheld came home from Arlington, Wis., to spend Easter with her parents, Mr. and Mrs. Fred Osterheld.

F. J. Ves, president of the Stoughton Wagon Co. who has been in Washington, D. C., on business, returned home Friday.

Mrs. Caroline Oscar, widow of the late Oscar Oscarson, who passed away Thursday morning at the home of her daughter, Mrs. L. O. Flugum with whom she has made her home since the death of her husband nine years ago.

Mrs. Oscar who for 25 years has been a resident of Stoughton was born in Norway March 25, 1849, and came to this country when four years of age. She was married to Mr. Oscar over in Green county 62 years ago, and for many years the couple were engaged in farming in the western part of this county. In 1894 they moved from Montrose to Stoughton. Of her twelve children, eleven are living, the eldest Jake Torgeson, having preceded her in death two years ago. The surviving children are Thos. Oscar of Stoughton, Mrs. Julia Kirkin and Mrs. Mary Adamson of Chicago, Mrs. O. S. Torgeson and Mrs. L. O. Flugum of Stoughton; Gilbert of Summerdale, Ala.; William of Brooklyn; Mrs. Elbert Usher of Stoughton; Mrs. John L. Quam of Madison; Eddie of Foley, Ala. and Henry of Monango, N. D. She leaves a brother, Anon Torgeson of Clear Lake, Iowa and a sister, Mrs. Rasmussen, of Oklahoma. Mrs. Oscar also leaves twenty-five grand children and five great-grand children.

Funeral services were conducted by Torjus Olson Sunday afternoon at 1:30 o'clock at the home and at two o'clock at the Norwegian Methodist church, burial following at Riverside.

As pallbearers officiated Messrs. Jens Eide, John Holmstad, Chris Egeland, O. C. Swenson, A. E. Overen and Olaf Erickson. The following out of town people attended the funeral: Henry Oscar, North Dakota; Mrs. Axel Adamson and Mrs. Julia Kirkin of Chicago; Wm. Oscar of Brooklyn; Mrs. J. L. Quam, J. M. Torgeson and Wm. Duffer of Madison.

Acid-Stomach Makes Millions Suffer

Indigestion—dyspepsia—sour stomachs—bloated, gassy stomachs—belchy, miserable feeling stomachs—these are Acid-Stomachs.

What a lot of misery they cause! How Acid-Stomachs, with its day-after-day sufferings, does take the joy out of life! Not only that—Acid-Stomach is always undermining one's health. Think of what acid does to the teeth—how the acid eats through the enamel, causing them to decay. Is it any wonder, then, that Acid-Stomach saps the strength of the strongest bodies and wrecks the health of so many people?

You see ACID-STOMACH victims everywhere always ailing. They can't tell exactly what is the matter; all they say is, "I don't feel well"—"I'm all in; tired, sickly." If they only knew it, nine times out of ten it is Acid-Stomach that is ailing them. It surely makes poor digestion difficult, causes food to sour and ferment in the bowels, weakens the blood and fills the system with poisons. It prevents one from getting the full strength out of their food.

Take EATONIC and get rid of your Acid-Stomach. This wonderful modern remedy actually takes the excess acid out of the stomach. It quickly and positively relieves bloated, heartburn, belching, food repeating, sour, gassy stomach, and the pains of indigestion. Makes the stomach cool and comfortable—keeps it sweet and strong. Banishes all stomach troubles so completely that you forget you have a stomach. You can eat what you like and digest your food in comfort, without fear of distressing after-effects. EATONIC helps you get full strength out of every mouthful you eat—and that is what you must have to be well and strong—full strength from your food.

EATONIC is in the form of tablets—tastes like a bit of candy. Absolutely harmless and agrees with the most delicate stomach. Try it. Get a big box of EATONIC from your druggist today. The cost is trifling. If it fails to bring wonderful relief, take it back; he will refund your money.

WISCONSIN IN CHINA DRIVE TO BE PROLONGED

Only One Third of Total
Amount So Far
Contributed

The "Wisconsin in China" drive is to be extended until Wednesday noon, since little more than one-third of the total amount has been raised. So far the students have contributed \$525 and the faculty \$600.

At a meeting of the executive committee last night, it was thought that the failure to raise the required amount in the original time limit was not due to lack of sympathy with the movement on the part of the students, but to the fact that the workers have not called on everyone.

Milton Bornmann, president of the Y. M. C. A., said that out of a list of twenty-five people, all but one subscribed to the fund immediately. In most cases it was not necessary to tell of the importance of Jack Child's work.

GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drinks lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoon in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

NO CONFIDENCE RATE BOARD IN RATE BOARD MARKS SESSION CAR PROBERS MARTIAL LAW PROCLAIMED IN PART OF INDIA

Bills to Repeal Law, and for
Elective Board Prompted
in That Spirit

The present session of the Wisconsin legislature will be marked with an apparent lack of confidence in the railroad commission of the state. In the three months that the legislature has been in session, the commission has been subjected to attacks on several sides. Probably the most surprising evidence of this character was the action of the transportation committee of the house in recommending for "death," but by the close vote of three to four, the Metcalfe bill for the complete repeal of the railroad commission law.

Several years ago a railroad commission repeal bill was offered but it received no support in committee and was not even given a roll call in the house. The Metcalfe bill was recommended for "death," but the vote in committee was Jacob Killa, democrat; C. M. Grimstad, republican; and J. M. Sell, socialist, for the bill, with C. H. Carter, Robert Mutter, H. A. Porath, and S. Owens, to kill the measure.

For Elective Plan.
Early in the session Assemblyman Thomas Baringale offered a bill for an elective railroad commission but the bill was killed on Feb. 12, by a vote of 51 to 44, after Assemblyman C. C. Coe had pleaded with the members to kill the measure and pass the C. E. Hanson bill giving the legislature power to recall an appointive official. Now that the C. E. Hanson bill is vetoed, Coe is out for an elective commission.

It was largely because of the resolutions passed by the Wisconsin Society of Equity and the State Federation of Labor on the Wisconsin railroad commission that C. E. Hanson offered his bill for the "recall." It went through the house unanimously and in the senate 20 to 1. It was vetoed by the governor, but on Wednesday Assemblyman Coe and a number of others who voted against the elective railroad commission plan in the first instance will work to put the bill over the governor's veto.

There was introduced in the house last week a bill under the joint authorship of Roethe and Severson, conservative and progressive, a bill asking that the Wisconsin railroad commission be made elective. Senator Wilcox is against the elective plan, but he admits that something should be done to put the confidence of the people again back of the railroad commission. Assemblyman Coe predicts that an elective bill would easily pass the house at the present time.

Jackson Up Thursday.
The delay in the confirmation of Carl D. Jackson, as a member of the state railroad commission, has been largely due to the feeling of the lack of confidence in the commission. No serious evidence was introduced against Jackson, but there seems to be an unwillingness on the part of some of the senators to give the matter final action. It is, expected, however, that the matter will be disposed of on Thursday.

"To be really frank there is a feeling among the people of a lack of confidence in the present railroad commission," said one of the leading senators today. "It is much more widespread than I had originally expected. If the C. E. Hanson recall bill had been approved, I think the situation would have been in much better shape. As it is I cannot say whether the railroad commission elective bill will pass or not."

How the Peace Treaty Will be Made Public

Plan for 250 Word and 5,000
Word Summary and Treaty
Later

(By the Associated Press)
PARIS—The council of four of the peace conference, in the interval before the peace treaty is handed to the German delegates, will take up the question of making the document public. Ray Stannard Baker, representing the American delegation, has recommended to the council the publication of the treaty immediately after its delivery to the Germans, otherwise, it is pointed out, the first version of the important provisions of the treaty would be issued by the Germans and might be loaded up with German propaganda.

The plan proposed is for the American delegates to cable for simultaneous distribution on the American continent first a 250 word official summary of the treaty; second, a 5,000 word official summary, and third, the text of the treaty. The two summaries would be given to the American press at about the same time and the treaty a day or two later, the text possibly to be distributed by instalments as it was received.

The text of the covenant of the league of nations has already been telegraphed to the state department at Washington for release when authorized by President Wilson. Other parts of the treaty are likely to be cabled during the present week. The final dispatch which may count up to nearly 100,000 words, can be cabled in four or five hours if all the cable lines are cleared for that purpose.

The capacity of the cables is 6,300 words a day and the associated gov-

eration. The purposes for which the latter organization were started were highly commended by the committee. The several demands of the men for increases in wages and the consequent demands of the company for increased revenues are outlined. The report shows that several increases in wages were given the company, but it was demanding more.

Got Big Increase
"Several minor increases were granted various of the constituent companies during the year 1918," says the report. "The increases in revenue through the decisions of the commission in 1918 for the various allied companies were estimated by the commission to add \$2,875,000 to the revenues of the companies."

The demands of the men for the wage increase in 1918 is then considered. It shows how the Employers' Mutual Benefit association had the company's books audited. It then shows that this wage difference lead to the controversy resulting in the cessation of service.

The committee regards it as the unquestionable legal duty of the company to have maintained service upon its lines on Jan. 1, even though it was necessary for it to comply with the demands of the men for increased wages, which the company admitted to be just," says the report. "It was not only its legal duty to maintain the service, but its moral duty as well. The committee finds that the company was able to temporarily advance the wages of the men according to their reasonable demands and continue the service, and the conclusive evidence of that fact is that it did advance the wages and continue its service after Jan. 1 until the present time."

Question of wages
The committee says that the company never at any time made a condition of their continuing the increased wages that the railroad commission should grant a favorable decision. The report declares that "the company only demanded that a decision be rendered so that, if unfavorable it might appeal to the courts for a review." The report held that the construction of the Wisconsin railroad commission with reference to its duty to pass on wages as a factor in the administration of the law, "as a condition precedent to the payment thereof," is too narrow. The commission contends that it has no power and no duty in regard to wages, except to consider them when paid as an operating expense."

"It is the opinion of the committee," continues the report to the legislature, "that the railroad commission takes too narrow construction of the law and that it has the power to consider wages the same as it has the power to consider any other factor in ordering service, and if this power is not sufficiently specified in the statutes as now provided, the commission should be given that power. In other words, the commission should have full and comprehensive administrative jurisdiction to keep the wheels going and prevent cessation of service."

Delay Is Long.
The report says that the company expressed dissatisfaction "with the delay of the commission in its decision on the case pending from November, 1915 to June 1918 and seemed determined not again to take any chances on a delay of that character by advancing wages and waiting for a subsequent recognition of the outlay." It not only brought pressure on the commission to decide, but it sought to encourage the men to protest to the commission and "influence public sentiment against the commission and in its favor by various means." The advertisements of the company are then considered.

Pointing out the delays of the commission in reaching conclusions it reaches the finding that the law should be changed so that whenever any party deems that its case is be-

gements could order the text of the peace treaty given first official priority so that the enormous task of transmission could be accomplished with less delay than a press message ordinarily sustains. On the day the peace treaty is signed the American correspondents will have their telephones in the Louis XIV bathroom in the Versailles palace.

The entrance will be by a secret door not 20 yards from the peace table, into a little corridor, and thence down a few steps into the marble bathroom which is sufficiently large for the installation of five or six telephones and one telegraph instrument.

Vedrine, Noted Aviator is Killed in France

PARIS—The death of Jules Vedrine, the French aviator, was due to a landing accident. He was flying low, one of his engines missing fire. He swung his machine in the direction of the wind but failed to get the engine working properly and so decided to land. He headed the machine toward an alfalfa field but fell short, the left wing collapsing. Vedrine and Guillaum, his mechanic, were both killed instantly.

ing unwarrantably delayed it may obtain in the circuit court of Dane county an order to show cause, why the commission should not render its decision within a reasonable time fixed by the court.

Lack of Confidence
"There appears to be a general lack of confidence between officials of the city of Milwaukee and the members of the street car company in the ability of the railroad commission to administer the law," says the report's conclusion. "The city of Milwaukee through its officials, and the managers of the street car company, are equally suspicious of each other. The public has been rudely awakened to a condition which may be very serious to it in case of a repetition of the troubles of Jan. 1. The employees of the street car company and the public utilities are equally distrustful of the railroad commission. The attitude of the company has been such as to make its employees hostile to the commission. The character of its advertisements have been such as to bring the administration of the law through the commission into public contempt."

"The beginning of the trouble probably came from lack of prompt decision on the part of the commission. The condition existed a long time. Decisions have been delayed seemingly for unreasonable periods. There can be little justification in a hearing pending from November, 1915 to June, 1918. But other cases have been delayed much longer. Hasty and ill-considered action should never be required, but reasonably prompt decisions are necessary to any system for administering justice. The commission is subject to reasonable criticisms—through the pressure or otherwise, but in no case should it be coerced into a decision by a party litigant before it."

The prize list for the tourney is in the neighborhood of \$500, \$220 of which will go to the leaders in the five-man division; \$170 in the two-man; and \$145 in the individuals.

TRACK MEN MOVE TO CAMP RANDALL

Track men will leave the gloom of the gym annex for the sunny fields of Camp Randall this week, with a temporary cinder track near completion for the outdoor work.

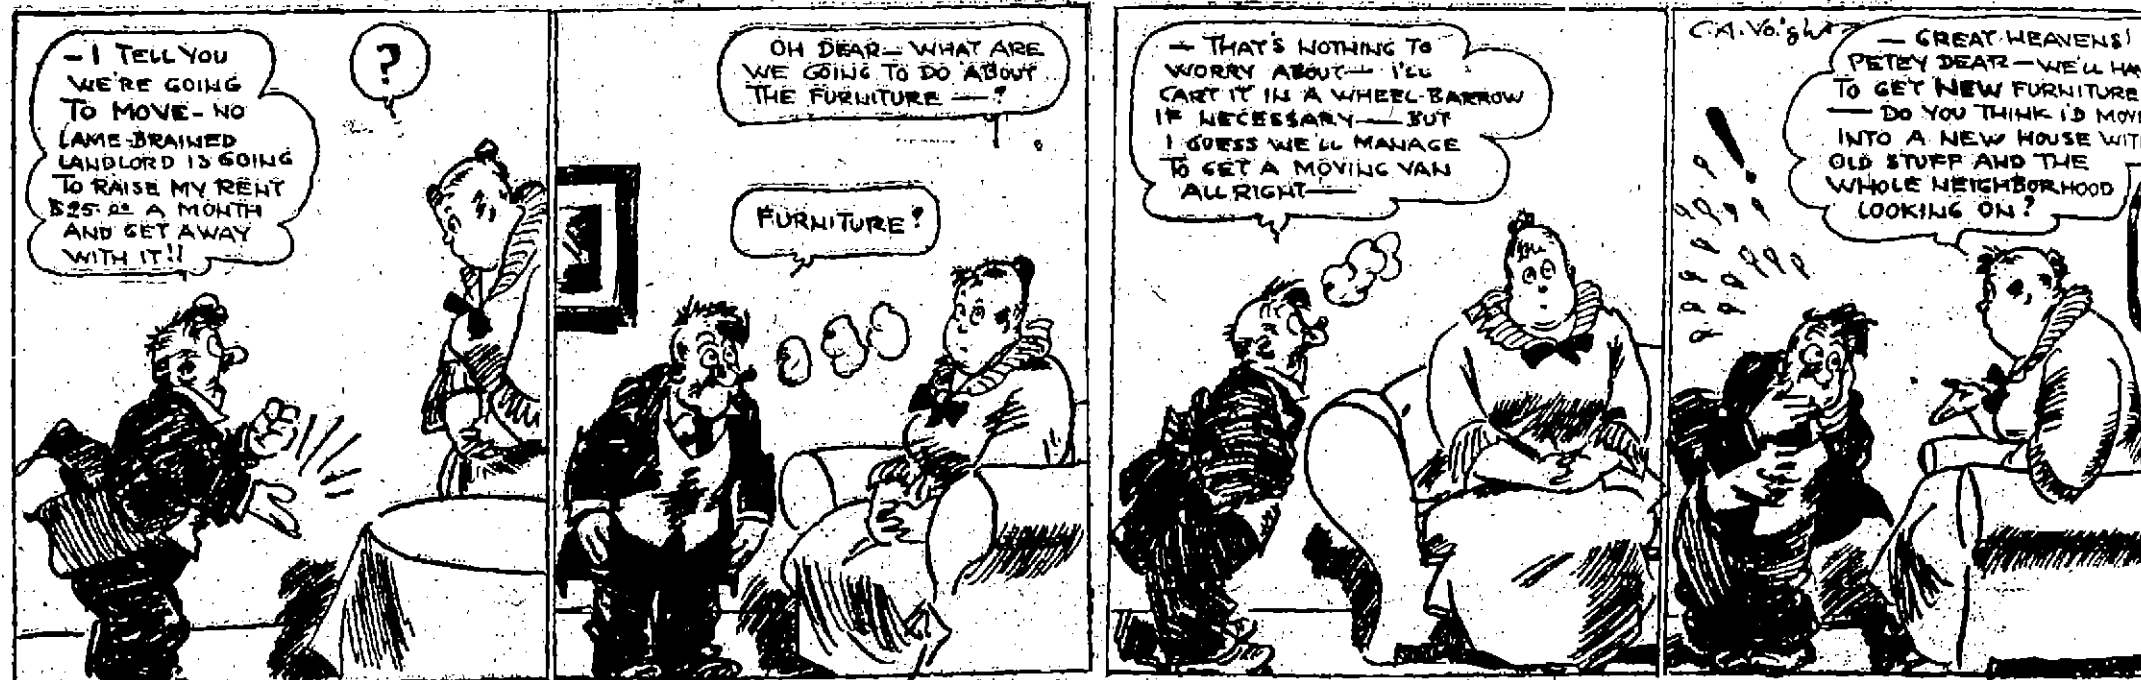

All track men, including both varsity and freshmen squads, will meet in the trophy room at the gym Thursday night at 7:15. Coaches T. E. Jones and G. T. Bresnahan will organize the squads and outline the work for the outdoor season.

Lack of a suitable track will greatly handicap Wisconsin this year. The old cinder path at Camp Randall is rendered useless by the presence of the barracks buildings, none of which have as yet been removed. A temporary runway is now being laid down and will be ready for use this week.

Coach Bresnahan is in charge of the cross-country squad, which will begin outdoor training at once. The next track event is a dual meet with Minnesota here on May 10.

McGOORTY BEATS CURRAN
PLYMOUTH, Eng.—Eddie McGorty, of Oshkosh, Wis., Monday defeated Patrick Curran in eight rounds. Curran had received such punishment that his seconds threw up the sponge. McGorty is a middleweight and Curran a heavy-weight.

PETEY DINK—Petey's Up Against the Grand Old Moving Game

20 Track and Field Events In Inter-Allied Games

HUGE MEET TO BE HELD NEAR PARIS IN JUNE

Relays, a Marathon, and a Cross-Country Race Are Scheduled

NEW YORK—The complete program for the inter-allied games, to be held near Paris about the middle of June, was announced here today by Dr. George Fisher, head of the physical education department of the Y. M. C. A. The list of contests, which will require several days to complete, resembles the program of the Olympic games.

There are twenty track and field events, the running races being at standard meter distances, ranging from 100 meter sprint to 1,500-meter run. High and low hurdle events are carded, running high and broad jumps, pole vault, javelin, discus, shot put and a modified marathon race of 16,000 meters and a cross-country run for individual competitors of 10,000 meters. Three relay races, one a medley event, are also proposed.

This series of events, open to all soldiers and sailors of the various allied nations, was planned by Col. Wait C. Johnson and Elwood S. Brown for the A. E. F. and the Y. M. C. A. co-operating. The track and field meet will be held in Pershing stadium at Joinville.

The stadium, which is partly completed, will seat 22,000 spectators, and including stands, will accommodate 35,000. A 500 meter circular track and a 300 yard straightaway will be the scene of the running events, except the marathon and cross-country races.

Candidates for teams to represent England, America, Italy, France, Belgium, British colonies and other nations are in training. The Americans are practicing in all parts of Europe where army or navy bases are located. Later the team squads will gather at one point for final work. Many discharged soldiers and sailors in the United States are sure to make the trip to France.

Special trophies for certain exceptional events such as the Pentathlon are to be donated by kings, presidents, premiers and others of the allied nations.

Champion Cubs Beat Page's Maroons, 8-1

Pirates to Open Season at Chicago Wednesday—Sox at St. Louis

CHICAGO—Returning home from their long training trip to the Pacific coast, Mitchell's Champion Cubs demonstrated a bit of their baseball prowess at the north side park yesterday afternoon by thrashing H. Orville (Pat) Page's University of Chicago team, 8 to 1, with H. Orville (Pat) himself on the slab.

The Cubs will open their season here with the Pirates on Wednesday. The White Sox open at St. Louis.

EVANSVILLE—Cleveland had no difficulty in taming Milwaukee once more in the final game of the series, the pitching of Morton and Eulish, who permitted one hit, being the headline. The score was 4 to 0.

The Brewers will open the season with the Colonels at Louisville Wednesday.

PHILS. 2, Athletics, 0
PHILADELPHIA—The Philadelphia Nationals tied the exhibition ball series on Monday by defeating the Philadelphia Americans here, 2 to 0. The outstanding feature of the game was Luderus' homer in the fourth inning.

The Phillies will open the season with the Giants at Philadelphia Wednesday.

CINCINNATI—As soon as a few more reserved seats have been disposed of, the Cincinnati National league club will hang out the "S. R. O." sign for the opening game on Wednesday with the Cardinals. Miles of smiles adorn Red officials, for Larry Kopf, prodigal son, is back with the team, and Eddie Roush, outfielder, also has signed, rounding out a powerful club. Cloudy weather is predicted for the opener.

DEMPSEY FEELS FIT
CHICAGO—Jack Dempsey, who is scheduled to meet Champion Jess Willard for the title July 4, and Manager Jack Kearns arrived in Chicago yesterday on their way to Cedar Rapids, Ia., to fill theatrical engagements.

Dempsey looks in condition to step into the ring at any time with the champion. He asserted he did not know where the fight will take place. He has not heard from Promoter Rickard in the last two weeks, but is reasonably sure Rickard has made up his mind where the battle will be fought.

BADGERS MEET MAROONS HERE THIS SATURDAY

Conference Season Opens For Varsity and Other Big Ten Nines

Western conference nines will clout the leather-covered sphere in the opening games of the 1919 baseball tussle Saturday.

Wisconsin meets Chicago at Camp Randall Saturday afternoon in the conference opener for the Badgers. The Maroons were let down hard last week in their Iowa trip, losing to Iowa university Friday 6-5 and to the Ames college team 2-0 on Saturday.

The Indiana trip was an even break for the Badgers, with a 7-2 win over Valparaiso balanced by a 4-3 defeat at the hands of Notre Dame.

Friday's game with Valparaiso university was an easy victory for the varsity. Williams, who pitched his first game of intercollegiate baseball, held the Indiana nine to six hits and helped win his own game by contributing two hits.

Keyes was the big man with the stick, garnering three hits in four times at bat.

Miller Outpitches Murray
The game with the Catholics on Saturday, however, proved more disastrous for the Badgers, although Miller allowed less hits than Murray, Notre Dame hurler. Poor base running, poor pitching and failure to bunt were the chief reasons for the defeat, although the game was marred by few errors.

Coach M. A. Kent is anticipating a week of stiff practice in preparation for the Chicago contest. A game with the freshmen team is scheduled for this afternoon. The freshmen are an unknown quantity, but Coach Lowman has a large squad and can be expected to give the varsity some real practice.

BADGERS FINISH FOURTH
DES MOINES—Wisconsin placed fourth in the university two-mile event at the Drake relay here Saturday. Notre Dame sprung a surprise by snatching first place from Chicago after a see-saw race up to the last repay, finishing the event in 8:02.

BREAKS 50-YARD SWIM RECORD—TIME IS :24

ALAMEDA, Cal.—Clarence Lane, formerly of Honolulu, broke the national 50 yard college swimming record Saturday when he made the distance in :24 in the intercollegiate freshmen swimming meet. Lane is a student at St. Mary's college, Oakland. The previous record of :25 1-5 was made in 1914 by F. E. Hadley of Yale.

RAY TO RACE EASTERN RUNNERS AT BROOKLYN

CHICAGO—Joie Ray, great middle distance runner of the Illinois A. C., will leave Wednesday for Brooklyn, where he will meet Jack Sellers and other eastern experts in a special 1,000 yard race on April 28. The games will be staged by the Fifth Coast Artillery corps. Ray holds the 1,000 yard record at 2:14.

MAUPOME BEATS AUGIE 60-51 IN FAST MATCH

CHICAGO—In their first league meeting Pierre Maupome defeated Augie Kieckhefer Monday night, 60 to 51, in sixty-one innings. Toward the close Kieckhefer gained fourteen points on the Mexican, putting the count 52 to 50 in favor of Maupome. Then Maupome spurred. Kieckhefer had high run of eight. Maupome had four fives.

BOYLSTON LEADS SHOOTERS
PINEHURST, N. C.—W. N. Boylston, Florida state champion, the field at the opening of the north and south amateur trapshooting tournament here Monday, hitting 143 out of 150 targets thrown.

LOS ANGELES, Cal.—The Blues of the Los Angeles Athletic club won the basketball championship of the United States by defeating the five of the Olympic club of San Francisco in the National A. A. U. basketball championship tournament.

FRESHMAN "DEC" HELD IN MAIN HALL THIS AFTERNOON

The freshman open declamatory contest will be held in 165 University hall this afternoon. Two representatives from this contest will be picked to compete with literary society representatives in the final which will be held tomorrow.

30c Children's Summer Underwear Closing Out at Jonas Bros. for 15c.

SPRING PRACTICE UNDER RICHARDS STARTS TODAY

Coach John R. Richards, varsity football mentor, arrives in Madison this morning for a review of the gridiron material out in spring practice.

Coach Richards has called a meeting of all football men in the trophy room of the gymnasium at 7 o'clock tonight. Plans for the spring and fall work will be gone over at this time.

Exactly forty-nine men have donned the molesters for the spring grid, and the squad has been frisking about on the lower campus or Radcliff gridiron for the past two weeks in charge of Coach Joe Steinmeyer and Major J. S. Woods. This is about twice the number of men out for spring football last year, and points to stiff competition for positions on the varsity eleven last fall.

E. MURPHY SIGNS WITH SOX

CINCINNATI—Manager Gleason of the White Sox received word this morning that Eddie Murphy, the last of the holdouts, had signed his contract and would report for duty at once. He expects to play Murphy regularly in right field and lead-off with him at bat as soon as he gets in shape.

A. E. F. BOXING TITLES AT STAKE

PARIS—Boxing championships have now reached the survival of the fittest stage, and before Gen. Pershing, Marshal Foch and a brilliant galaxy of officers from both French and American staffs, the winners of the bouts on April 26 will be declared the champions of their respective classes in the American army.

Bantams—Babe Ashit, Detroit, vs. George Schibner, Philadelphia.
Featherweights—John Furey, Pittsburgh, vs. Tommy Chertok, Brooklyn.

Lightweights—Boshy Graham, Brooklyn, vs. Leo Paterson, Joplin, Mo.

Welterweights—Johnny Summers, Brooklyn, vs. William Kleck, New Orleans.

Middleweights—Johnny Clark, New York, vs. William Walters, Philadelphia.

Light-heavyweights—Eugene Turner, New York, vs. Ted Jamieson, Milwaukee.
Heavyweights—Ray Kaiser, Pittsburgh, vs. Bob Martin, New York.
The spectators at Friday night's bouts at the Cirque de Paris were treated to one round of real fighting by Mike O'Dowd, middleweight champion of the world.
